## Memory Workshop Presented by Lynne Curry, PhD.

*Bring this seminar to YOUR company*

### It is designed for anyone:

1. Who wants to remember the name of anyone for any reason (customer service, sales, client relations)
2. Who wants to access an important name or fact, back in the reaches of memory
3. Who believes that a better memory would improve his/her efficiency and effectiveness quotient

### What you will learn:

- How to remember names
- How to increase your recall of anything
- How to increase your ability to remember what you learn or read
- How to enhance other's retention of what you say
- Plus! A special focus on numbers

### What people say who have taken Lynne Curry's Workshops

Your class was great and being able to remember 47 names after a few hours of training is a testimonial as to the validity of your process. I wouldn't have believed it possible. It was a fun 4 hours and meeting a room full of interesting people (whose names I remember) was a plus.

*Chris Lace, Aleut Corporation*

As a person who can't visualize and has a hard time memorizing names, facts or anything for that matter, I found hope in Lynne Curry's Memory class. Not only did Lynne give me immediate results, but also the tools necessary to improve retention for a lifetime. I would recommend this class to everyone.

*Debbie Cutler, Alaska Business Monthly*

She began the training with a quick assessment of what all participants wanted to gain from the sessions. During the training, she has an amazing ability to connect with people. She listens carefully with her ears and her eyes, and does an outstanding job of matching her presentation to what the participants need.

*Debra Bruneau, RurAL CAP Child Development Division*
